Part B for [illegible] 1924.

SUBJECT

Appointment of an assistant Engineer and with his Subordinates for work Connected with Sanitary and Town planning Schemes of Local bodies

1 To, The Chief Engineer, the Comptroller, and to Govt. P.W.D, the Secretary Commrs of this Trade & the Presidents of South Bds.

NOS 1364-82/d 18/21-8-1924.

Sanctions the appointment referred to above.

From

JOHN SHORE, Esq., A.M.I.C.E., M.R.San.I.
CHIEF ENGINEER FOR IRRIGATION.
BANGALORE.

No. [illegible] Dated 6th June 1923.

To

The Executive Engineer,
Sanitary Division.

With reference to his No.2984 dated the 26th May 1923 requesting to be informed as to how the requisitions received from various Municipalities on matters connected with sanitation, drainage, town planning &c., should be disposed of, has the honour to inform the Executive Engineer that such requisitions may be returned to the different Municipalities with the intimation that the Construction Division has no instructions to undertake such work.

(Sd) J.Shore.

For Chief Engineer for Irrigation.

No. [illegible] dated 6th June 1923.

Copy of the above (with copies of Sanitary Division Executive Engineer's No.2984 dated 26th May 1923 and its enclosure) is forwarded with compliments to the Secretary to Government, Revenue Department, for information.

For Chief Engineer for Irrigation.

ON MYSORE GOVERNMENT SERVICE.

To

[redacted]

[redacted]

[redacted]

Clerk,
Office of Chief Engineer for Irrigation,
Bangalore.

Letter No. 2984 dated 26th May 1923 from the Sanitary Engineer, Sanitary Division, to the Chief Engineer for Irrigation.

I have the honour to report that references are being received in this Division from various Municipalities asking for information, advice &c., on matters on sanitation, drainage, town planning,&c.

While this Division is intended chiefly for works relating to Water Supply construction, it has been found difficult to comply with the several requisitions received as the Division is busy with the investigation of important water supply works.

The subordinates who were working in the project section are now mostly employed on other works and one or two hands left there are fully occupied in furnishing to the Municipalities the plans of towns already surveyed.

I submit herewith a list of references received from the several Municipalities for your information.

Just now, the investigation of several important water supply works is on hand and with the sanitary works that are being executed by the Division it is hardly possible to find time to attend to the frequent references from the Municipalities unless the Division is specially organised to take such works.

I request therefore to be informed as to how such requisitions may be disposed of.

"True Copy"

T. Narasimhan

Assistant Secretary,
P. W. Secretariat (Irrigation)
Department.

The requisitions received from various Municipalities, &c. from time to time is as follows:-

1. Supplying tracings of block and index maps to recover the survey charges incurred thereon.
2. Supplying blue prints of all the towns surveyed by this Department to the Inspector General of Education.
3. Drainage estimate to Chickmagalur
4. do Tahrekere (to be revised)
5. do Hassan
6. do Hiriyur
7. do Kunigal
8. do Belur and survey
9. do Mudagere and Survey
10. do Chicknaikanhalli
11. do Arsikere
12. Laying out extension of the Municipality, Hiriyur. Checking the extension plan as per Sanitary Principal and redoing it in the division.
13. do Keelara village, Mandya Taluk
14. Estimate for constructing Pom Drain in Arsikere (to be scrtu. Vol 9 and checked)
15. Supplying designs and estimates

    Slaughter House for Bulls - Chickmagalur

    Isolation Camp - Sanitary Commission

    Market for Meat and Vegetable - Chickmagalur.

I do not think that we need be very anxious about the proposed arrangement between the Municipal Council and the Water Supply & Drainage Co. in connection with the W.P.W. Reservoir at Mount Lavinia, as the Water Supply Works will be handed over to the Municipality in a few years time, and the Municipality will have to take over the Water Supply Works & the Company will then be left with the Reservoir only.

Municipalities have no objection to have their own Water Supply & Sanitary Works and if the Company establishes a ground rent to cover the work, it will have the strong hand.

Appointment of an Extra Engineer & Staff for Sanitary Improvements in Municipalities & Local

Extract from the Proceedings of the Council is put up.

Forwarded, with compliments, to the Financial Secretary to Government, under paragraph 9 * of the Government Order No. G. 17572-8—G. M. 676-17-1, dated 22nd June 1918.

By Order,

Chief Secretary to Government.

*9. (a) If the views expressed by the Financial Secretary in any case, whether original or un-officially referred, are not accepted by the Member of Government in charge, or by the Dewan and Members of Council, as the case may be, the file containing the discussions shall be sent to the Financial Secretary a second time, in order to enable him, in cases in which he considers that the orders proposed to be issued are opposed to financial rules of Government or to recognised financial principles or for other reasons of a financial nature, are open to objection, to record a respectful representation to that effect, which will be placed by the Dewan before His Highness the Maharaja for consideration.

(b) All cases sent to the Financial Secretary under this rule should be treated as immediate and returned to the Department concerned within three days of receipt.

by I do not think a centralised agency like t proposed can work satisfactorily. One Assistant Engineer with some subordinate staff will not, I think, be able to give expert advice to all Local Bodies in the State "in the preparation and execution of schemes of water supply, drainage, town planning, etc." Besides, I do not think an off of the experience and status of an Assistant Engine can give really useful expert advice. Most of the Local Bodies have no funds for carrying out project of water supply, drainage and town planning and I do not see much object in preparing schemes the execution of which is bound to be remote. All things considered, it seems to me that what little work there is of this nature to be attended to for some time some can well be entrusted to the Divisional Executive Engineers. If an Assistant Engineer is competent to give expert advice in regard to these schemes, I think the Divisional Executive Engineers are equally, if not more, competent to do so. The grants to be worked by the divisions have largely been reduced and in the next two or three years, there is no prospect of the grants being substant

G. R. S. III-2]

General and Revenue Secretariat. | File No. | of 19

Serial No.

substantially enhanced. I think, therefore, that it will be possible for the Divisional Executive Engineers to attend to what little work of this kind there is to be done in the near future. When the volume and continuity of work cannot be assured, the cost of the proposed establishment to be borne by the few Local Bodies that may seek its advice may prove too expensive for them and there may not also be sufficient justification for the part of the cost of the new establishment proposed to be charged to Government. Altogether it seems to me that there is no need or justification for an organisation of the kind proposed.

Ex. no 49

16

9) Submitted to the First Member of Council, with reference to his orders dated 6th October 1923.

2. In regard to the preparation and execution of water supply schemes for the Municipalities the new Water Supply Constructio Division having been specially constituted for this purpose will attend to the same. The establishment sanctioned for the Division being very limited, it was not possi for the Division to undertake the surveys of towns, preparation of drainage and town planning schemes.

3. The Financial Secretary states that one Assistant Engineer with a subordinate staff will not be able to give expert advice to all Local bodies and suggests therefore that each Divisional Engineer ma attend to such work as the Executive Engineer will be in a better position to give expert advice than an Assistant Engineer.

4. It is my firm opinion that in the case of the sanitary schemes and surveys referred to a certain amount of specialise knowledge is necessary and the Executive Engineers of Divisions cannot be expected to do justice. While I agree with the Financial Secretary that a centralised agency under an Assistant Engineer may not work satisfactorily, yet I presume it is the intention of Government to place this Assistant Engineer and the subordinate staff under the Executive Engineer, Water

F.

17

117

who has by experience and study specialised in this branch of Engineering and to this proposal I have no objection.

5. As contemplated in the Council Resolution an Assistant Engineer or Sub Engineer and 4 suboverseers may be sanctioned specially for furnishing surveys of towns, drainage schemes and town-planning schemes. This staff may be placed under the Executive Engineer, Water Supply Construction Division who will in all cases of important schemes submit papers and projects to me before forwarding the same to the Municipalities.

20) Returned, with compliments, to the Secretary to Government, Local and Legislative Departments, with the observation that it is not possible for the Executive Engineers of Divisions to render assistance to the Municipalities in respect of the preparation of Drainage, Town Improvement schemes, etc. The Executive Engineer, Water Supply Construction Division, has however been requested to attend to these requisitions so far as the present sanctioned establishment in the Division could be spared for the works referred to.

21) 2. It cannot be stated as to what cost should be debited to each Municipality at this stage. The establishment charges of the Assistant Engineer and the subordinates etc., may first be treated as miscellaneous advance. When estimates are prepared for each Municipal Town either for drainage, town improvement or survey works, the necessary provision to cover the charge for the establishment will be provided for. Generally one Sub-overseer with some lascars will be required to be employed on the preparation of the estimates but the duration of their employment will depend according to the area of the town, etc. It has been found by experience that the cost of work for different towns varies. As such the Municipality can be given a rough cost of the probable amount for each kind of work they would like to be got done before the work is actually undertaken.

22) 3. Before the work is undertaken, the Municipality will be required to deposit the amount of the estimate which may be credited against Miscellaneous advance account.

File No. of 191

Extra Asst Engineer and Staff in connection with Sanitary Improvements in Municipalities &c.

Extract from the Proceedings of the Council is put up.

Forwarded, with compliments, to the Financial Secretary to Government, under paragraph 9 * of the Government Order No. G. 17572-8—G. M. 676-17-1, dated 22nd June 1918.

By Order,

Chief Secretary to Government.

The proposal is to appoint an Assistant Engineer and meet the cost of his employment from "the grant for sanitary and other improvements in Municipalities." I do not know what grant is meant. If the intention is that this expenditure should be met from any of the minor heads under "30. Grants for Public Improvements", I would request that the consideration of this question be deferred until the grant for the next year is ascertained. I may add that there is a proposal to meet the cost of the well-boring establishment from the same grant to be allowed for next year. If, however, the intention is that the cost should be borne by the Local Bodies, it is necessary to know which of the Local Bodies will bear the cost. The Chief Engineer's proposal that the expenditure should be treated as an item of Miscellaneous Advances in anticipation of its being transferred to the others is open to financial objection.

9. (a) If the views expressed by the Financial Secretary in any case, whether original or ex-officially referred, are not accepted by the Member of Government in charge, or by the Dewan and Members of Council, as the case may be, the file containing the discussions shall be sent to the Financial Secretary a second time, in order to enable him, in cases in which he considers that the orders proposed to be issued are opposed to financial rules of Government or to recognised financial principles or for other reasons of a financial nature, are open to objection, to record a supplemental representation to that effect, which will be placed by the Dewan before His Highness the Maharaja for consideration.

Final Note by the First Member of Council.

Subject:— Appointment of an extra Assistant Engineer and staff at the cost of local bodies in connection with Sanitary Improvements in the several Municipalities and Local Boards.

Soon after the amalgamation of the Water Supply and Sanitary Divisions under one Officer in the Government Order of 9th September 1922 regarding the reorganisation of the Public Works Department, the Chief Engineer for Irrigation issued instructions to the Executive Engineer of the new Division to return all requisitions from Municipalities on matters connected with Sanitation, Drainage, Town Planning &c. The principle followed till then was for Government to provide expert advice to local bodies free of cost, and as under Standing Orders, the local bodies have to send their town planning and other schemes for scrutiny and advice to the Sanitary Engineer, I suggested that the Executive Engineer, Water Supply and Sanitary Division, should be asked to attend as before to requisitions from these bodies and that if necessary the staff of the Division may be strengthened by adding an Assistant Engineer thereto. The Dewan having observed that as the new arrangement was the result of retrenchment orders, it would not be possible to sanction additional staff, I agreed to local bodies being asked to contribute towards the cost.

The question was considered in Council on 3rd October 1923, when the following resolution was recorded:-

"With a view to provide expert advice to local bodies in the preparation and execution of schemes of water supply, drainage, town planning &c., an Assistant Engineer with necessary subordinate staff may be maintained, 50% of the cost being paid by the Government, and the remaining 50% being recovered by a pro-rata levy from the local bodies on whose behalf the work is undertaken by the special staff".

The Financial Secretary, to whom the Council Resolution was sent for remarks, stated that a centralised agency under an Assistant Engineer might not work satisfactorily and that with the limited finances of the local bodies there would be little work for the new officer, which could be easily attended to by the Executive Engineers of the respective Divisions.

The Chief Engineer for Irrigation was however of opinion that in the case of Sanitary Schemes and Surveys a certain amount of specialised knowledge is necessary and that the Executive Engineers of Divisions cannot therefore be expected to do justice to the work. He also stated that if the proposed Assistant Engineer be placed under Executive Engineer, Water Supply Division, Mr. H. F. Marker, who has specilised in this branch of Engineering, the arrangement would not be open to any objection.

The matter was further considered in Council on the 20th December 1923 and the 27th March 1924, and in view of the difficulty expressed to apportion the cost of the new staff among the local bodies, it was resolved at the latter meeting that 'an extra Assistant Enginee may be sanctioned and attached to the Water Supply and Sanitary Division, the cost being debited to the grant for Sanitary and other Impro ments in Municipalities".

On the suggestion of the Financial Secretary further action t matter was however deferred pending the settlement of the grant under '30 Grants for Public Improvements' for the current year.

The question was finally considered at the last meeting of the Council and the Council passed the following resolution,-

"An Assistant Engineer with two Sub Overseers may be appointed to assist local bodies in connection with town improvements, the cost being met from the grants under 30 Grants for Public Improvements (2) Improvement of water supply in towns and (3) Improvement of towns and minor Municipalities and any contributions Municipalities

and District Boards".

The Financial Secretary to whom the resolution was sent for remarks has not offered any.

The resolution of the Council may be graciously approved.

Bangalore,
15th July 1924.

MEMBER OF COUNCIL.

G. R. S. IV—6]

Submitted to His Highness.

I submit herewith a Final Note by the FIRST *Member of Council on the subject of* appointment of an extra Assistant Engineer and staff at the cost of local bodies in connection with Sanitary Improvements in the several Municipalities and Local Boards, *for His Highness' gracious approval.*

PROCEEDINGS OF THE GOVERNMENT OF
HIS HIGHNESS THE MAHARAJA OF MYSORE.

----oOo----

R e a d.-

Memo No. M.10203, dated the 9th - - June 1923 from the Chief Engineer for -- Irrigation in Mysore forwarding copy of his Memo No. M.10202 of the same date to the Executive Engineer, Sanitary Divi- - sion, informing him that requisitions -- from Municipalities on matters connected with sanitation, drainage, town planning etc., may be returned to the different - Municipalities.

ORDER No. D. 1364-82/W94-24-1

Bangalore, 18th August 1924.

Prior to the reorganisation of the - Public Works Department in September - - 1922 the principle followed in matters - of sanitation, drainage, town planning - etc., was for Government to provide ex- pert advice to local bodies free of cost through the Executive Engineer, Sanitary Division, Soon after the amalgamation - of the Water Supply and Sanitary Divi- -- sions under one officer in G.O. No. P.W. 373-426/E.1974-2027, dated the 9th Sep- - tember 1922, the Executive Engineer of -- the new Division found it hardly possible to find time to attend to requisitions -- from the various Municipalities connected with sanitation, drainage etc., and the - Chief Engineer for Irrigation has accord-

W 1974

ingly issued instructions to the Executive Engineer of the new Division - to return all such requisitions of -- Municipalities.

Government have carefully considered the matter and are of opinion that ~~there is need for some time to - some for providing the local bodies - with expert advice in matters referred to above~~. They are therefore -- pleased to direct that an Assistant - Engineer with two Sub Overseers working under him be appointed to assist the Executive Engineer, Water Supply and Sanitary Division in the work connected with the preparation and execution of sanitary and town planning -- schemes of the several Local Boards - and Municipalities in the State. The cost on account of the staff will be met from the grants under "30. Grants for Public Improvements, "(2) Improvement of Water Supply in towns and --- (3) Improvement of Towns and Minor -- Municipalities and from any contributions by the Municipal Councils and District boards.

The Chief Engineer is accordingly requested to submit detailed ~~proposals~~ to - - give effect to the scheme at a very - early date.

T. SATYARAJ CHETTY Esq., B. A.,
Comptroller to the Government of
His Highness the Maharaja of Mysore.

B. Nagappa Esq., Bar-at-Law.,
Secretary to the Government of Mysore,
Local and Legislative Departments, Bangalore.

Sir,

Adverting to Government Order No. L.1384-88 Ml.94-24-1 of 18th August 1924 directing that the charges relating to the additional Establishment sanctioned to the Public Works Department for rendering professional aid to local bodies in Engineering matters be met from the grants under "30 Grants for Public Improvements" and (2) Improvement of Water Supply in Towns", I have the honor to state that agreeably to this order a portion of a grant under this head has to be transferred to "24 Civil Works - Establishment Construction" to which charges for the additional establishment now sanctioned have to be debited under the rules for classification of charges, and as these are separate voted heads the transfer requires the sanction of the Legislature. I therefore request definite orders of Government in the matter.

I have the honor to be,
Sir,
Your most obedient servant,

T. Satyaraj Chetty
Comptroller.
